

Description of Coal Handler Project Files

This is a set of documentation for the control system for the coal handling system. There are no mechanical drawings and no drawings showing the wiring layout (cables, junction boxes, etc.).

<u>File Name</u>	<u>Description of File</u>
CoalHandlerControlNarrative.doc	Describes operation of control system
CoalHandlerOIPanelDescrip.doc	Describes the operation of the OI panel that displays the alarms
CoalHandlerTestPlan.doc	Test plan
Bill of Materials.xls	List of parts
Drawings*.*	Electrical Drawings. "001EW5000" contains the index. All drawings are 11" x 17". Both .cdr (CorelDraw ver. 16.0) and pdf files are included. The drawings can be printed on a printer that handles that size drawing, or can be reduced to fit a smaller size page.
Program\Coal_Handler.acd	CompactLogix program. Studio 5000 ver. 34
Program\Coal_Handler.pdf	Listing of program
Program\Coal_Handler_Tags.pdf	Cross-reference listing of program tags
